COMMENTS ON STATEMENTS OF REASONS FOR ALLOWANCE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22323-1450

Dear Sir:

Two Notices of Allowance were issued in this application, both with due dates of 8/17/2005. The Examiner signed one Notice of Allowance on 05/13/2005 and another Notice of Allowance on 05/14/2005.

After conferring with the Examiner Applicants' attorney has been informed that the Notice of Allowance signed on 05/14/2005 should be considered as a supplement to the Notice of Allowance signed on 05/13/2005. Applicants note that the Examiner's statement of "Reasons for Allowance" differ in the two Notices of Allowance. In each case the Applicants submit that the Reasons for Allowance are unduly restrictive.

The Notice of Allowance signed on 05/13/2005 contains the Examiner's statement of Reasons for Allowance as follows:

The prior art reference has failed to disclose or suggest a method for using a filter device, and the filter device is carried by a

guidewire and restrained by a tubular sheath as recited in the independent claims 1, 40 and 45.

Applicants point out that although the Examiner refers only to a method independent claim 1 claims a device for filtering fluid. Further, although the Reasons for Allowance refer to a filter device carried by a guidewire and "restrained by a tubular sheath" the language of independent claims 1, 40 and 45 requires only that the filter element be "restrained in the lumen of the sheath". Applicants submit that it is the language of the claims which accurately defines the invention and not the Examiner's statement of Reasons for Allowance.

In the Notice of Allowance signed on 05/14/2005, the Examiner sets forth an aggregation of limitations selected from or based on limitations contained in various of the allowed claims. Applicants submit that their invention is not limited to the collective aggregation of limitations set forth by the Examiner in the Reasons for Allowance but is defined by the wording of the individual claims themselves.

It is believed that no additional fees are due in connection with this submission. However if this is incorrect, please charge any additional fees to Deposit Account No. 16-2312.
